

INFORMATION FOR RECOGNITION OF DISEASE-FREE STATUS FOR CATEGORY C DISEASES OF AQUATIC ANIMALS IN ACCORDANCE WITH CHAPTER 4 OF PART II OF [REGULATION \(EU\) 2020/689](#) AND ARTICLE 11 OF COMMISSION IMPLEMENTING [REGULATION \(EU\) 2020/2002](#)

| Requirements and information | Information, explanation and justification |
|---|---|
| Identification of the programme | |
| 1. Date of submission | 26 November 2021 |
| 2. Name of Member State and details of contact point | Denmark Danish Veterinary and Food Administration (DVFA), Stationsparken 31-33, 2600 Glostrup. Phone: +45 72276900. E-mail: 14@fvst.dk |
| 3. Name of Category C disease | IHN – Infectious Haematopoietic Necrosis |
| 4. Identification of the grounds for recognition of disease-free status | Continued IHN free status of a historically free compartment under surveillance conducted in accordance with Annex VI, part II. (d) Completion of an eradication programme |
| 5. Territorial scope of the eradication programme | (b) Compartment <u>Address:</u> Ravningvej 26 7182 Bredsten Denmark CHR 118844 <u>Coordinates:</u> Latitude: 55.68 Longitude: 9.35 |

| | |
|---|--|
| | <p><u>Farm details:</u> Farm production: Egg packing center Water supply: Drilling Discharge of effluents: Seepage PIT</p> <p><u>Farm productivity:</u> There are no fish at the holding. Fish eggs are supplied by Ravning Dambrug (CHR: 103668), Ravningkær (CHR: 106314) og Ollerupgård (CHR: 128165). They are provisionally declared as IHN free compartments.</p> <p><u>Description of compartment:</u> The hatchery consists of an isolated building, containing fish eggs from other establishments with the same animal health status. All fish eggs are kept in water trays. Each tray can be identified by batch number.</p> |
| <p>6. Dependency of compartments</p> | |
| <p>(a): Independent compartments as referred to in point (a) of Article 73(2) of Regulation (EU) 2020/689</p> | |
| <p>(i) The water is supplied through a water treatment plant which inactivates the relevant pathogen or that the water is supplied directly from a well, a borehole or a spring</p> | <p>The water supply comes from a borehole.</p> |
| <p>(ii) Where such water originates from a source outside the establishment, it is channelled directly to it by means which afford appropriate protection from infection</p> | <p>See (i).</p> |

| | |
|--|---|
| <p>(iii) There are natural or artificial barriers that prevent aquatic animals from entering each establishment in the compartment from surrounding natural waters</p> | <p>Inlet: see (i) Outlet: The water discharges into a lagoon/seepage area for seepage. (See map)</p> |
| <p>(iv) Where appropriate, the establishments in the compartment are protected against flooding and infiltration of water from surrounding natural waters</p> | <p>The hatchery is located in a closed off building with no change of flooding and infiltration of water from surrounding natural waters.</p> |

7. Statement

Statement confirming that the relevant general criteria in accordance with point (a) of Article 73(1) of that Regulation for aquatic compartments, are complied with since 1 April 2016 or longer

- (i) The territorial scope complies with point (c) of Article 47(2) of Regulation (EU) 2020/689;
- (ii) The surveillance for the disease complies with the requirements laid down in Articles 3(2), 4 and 6 to 9 of Regulation (EU) 2020/689; Until 21 April 2021 Denmark had Danish legislation based on the Implementing decision (EU) 2015/1554 (referring to Council Directive 2006/88/EC), and respectively Regulation 2017/625 and Regulation 2004/854. Furthermore, Denmark has an executive order no. 1324 of 26/11/2015, replaced by executive order no. 1451 of 12/12/2019 according to Council Directive 2006/88/EC.
- (iii) Operators comply with obligations as regards biosecurity measures as laid down in Article 10 of Regulation (EU) 2016/429; and Danish executive order no. 965 of 18/07/2013.
- (iv) Operators comply with the disease control measures relevant to the disease in the event of a suspicion or confirmation; Delegated Regulation 2020/689 and Danish executive order no. 1324 of 26/11/2015, replaced by executive order no. 1451 of 12/12/2019 according to Council Directive 2006/88/EC.
- (v) The establishment comprising the compartment was approved for brood stock in 2011. The establishment was approved according to Danish executive order no. 965 of 18/07/2013 since it has been applied.

| | |
|--|--|
| | <p>(vi) Traceability of the animals from the targeted animal population is ensured.</p> <p>(vii) When moved, the animals from the targeted animal population or products thereof complied with the animal health requirements for movement within the Union or for entry into the Union of those animals and products thereof, and Danish executive order no. 965 of 18/07/2013.</p> |
|--|--|

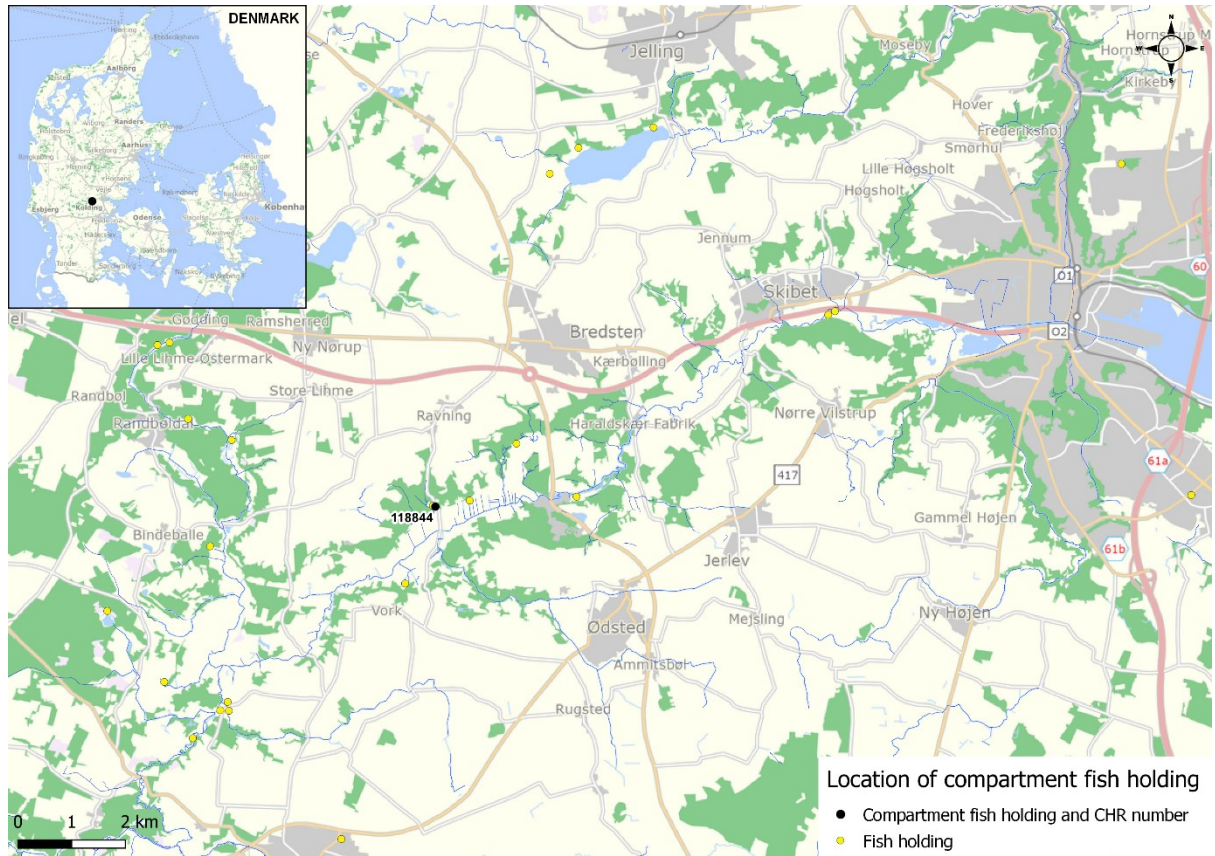

11. When the grounds for recognition of disease-free status is based on the completion of an eradication programme, for each year of the programme, information must be supplied concerning:

(a) the aquaculture establishments and where relevant, the sampling points in the wild in the zone/compartiment:

| | |
|---|---|
| <p>(i) Number of approved aquaculture establishments in the programme</p> | <p>There is one approved aquaculture establishment in the compartment.</p> |
| <p>(ii) Maps showing approved and registered aquaculture establishments, and where relevant, sampling points in the wild</p> | <p>See map of compartment.</p> |
| <p>(iii) Number of aquaculture establishments, and where relevant, sampling points in the wild, out of the total number of aquaculture establishments and sampling points in the wild, which are not infected</p> | <p>One out of one aquaculture establishment in the compartment is not infected.</p> |
| <p>(iv) Number of aquaculture establishments, and where relevant, sampling points in the wild, out of the total number of aquaculture establishments and sampling points in the wild, with confirmed cases</p> | <p>The establishment has no confirmed cases.</p> |

| | |
|---|--|
| <p>(v) Number of new aquaculture establishments, and where relevant, sampling points in the wild, out of the total number of aquaculture establishments and sampling points in the wild, with confirmed cases</p> | <p>There are no new aquaculture establishments in the compartment with confirmed cases.</p> |
| <p>(b) animal health visits and sampling which have been completed</p> | |
| <p>(i) Number of health visits per approved and where relevant, per registered aquaculture establishment</p> | <p>The establishments consist of one egg packing center; therefore, no sampling has been carried out. The establishment has had at least one health visit per year since 12th of December 2016.</p> <p>The establishments, from which the eggs arrive, have at least the same health status for IHN. The eggs are of the species: rainbow trout and brook trout.</p> <p>Since 21 April 2021, the establishment has been subject to health visits according to Delegated Regulation 2020/689, annex VI, part II, Chapter 1, section 4 and 5. Until 21 April 2021, the establishment has been subject to health visits and sampling according to executive order no. 1324 of 26/11/2015, replaced by executive order no. 1451 of 12/12/2019 (according to Council directive 2006/88/EC).</p> |
| <p>(ii) Number of samplings per approved, and where relevant, per registered aquaculture establishment, or samplings in wild populations</p> | |
| <p>(iii) Number of animals sampled at each sampling event</p> | |
| <p>(iv) Species sampled</p> | |
| <p>(v) Results from each laboratory examination (positive/ negative for the pathogen in question)</p> | |
| <p>(vi) Results from each clinical inspection</p> | |
| <p>(vii) Water temperature at the time of sampling</p> | |

Map of compartment and location in Denmark:

- The Red line marks the outer border of the compartment
- The Green line marks the outlet
- The blue dot marks the water supply
- Læsseplads = Loading area
- Støvleskift = Area for cleaning and changing boots
- Indgang = Entrance
- Udløb = Outlet
