

Six-monthly report on the notification of listed diseases, infections and infestations

SMR_172199 - Denmark - Second semester 2024 - Aquatic

General information

Report
N° SMR_172199
Validated
Denmark
Aquatic
Second semester 2024

Delegate of
Denmark

1. Summary of listed diseases, infections and infestations present in this period

Listed diseases	Animal Category	Occurrence code	New Outbreaks	Total outbreaks	Measuring unit	Susceptible	Cases	Deaths	Killed and Disposed of	Slaughtered/ Killed for commercial use	Vaccinated in response to the outbreaks
Aphanomyces astaci (Inf. with)(Crayfish plague)	Domestic	Disease absent	0	0		0	0	0	0	0	0
	Wild	Disease suspected	...	...		...	...	...	...	...	...
Bonamia ostreae (Inf. with)	Domestic	Disease limited to one or more zones	...	...		...	...	...	...	...	...
	Wild	Disease limited to one or more zones	...	...		...	...	...	...	...	...
Gyrodactylus salaris (Inf. with)	Domestic	Disease suspected	...	...		...	...	...	...	...	...
	Wild	Disease suspected	...	...		...	...	...	...	...	...
Koi herpesvirus (Inf. with)	Domestic	Disease suspected	...	...		...	...	...	...	...	...
	Wild	Disease absent	0	0		0	0	0	0	0	0

2. Listed diseases, infections and infestations present in this period

Fish

Gyrodactylus salaris (Inf. with)

Occurrence code

- Domestic

Disease suspected
- Wild

Disease suspected

Preventive and control measures

- Domestic
- Farmed fish

Wild
- General Surveillance
- General Surveillance

Koi herpesvirus (Inf. with)

Occurrence code

- Domestic

Disease suspected

Preventive and control measures

- Domestic
- Farmed fish
- Disease notification
- General Surveillance
- Precautions at the borders

Molluscs

Bonamia ostreae (Inf. with)

Occurrence code

Domestic	Disease limited to one or more zones
Wild	Disease limited to one or more zones

Preventive and control measures

Domestic		
Farmed molluscs	Disease notification	General Surveillance
Wild	Disease notification	General Surveillance

Crustaceans

Aphanomyces astaci (Inf. with)(Crayfish plague)

Occurrence code

Wild	Disease suspected
------	-------------------

Preventive and control measures

Wild	General Surveillance
------	----------------------

3. Listed diseases never reported or absent in this period

Fish

Aphanomyces invadans (Inf. with) (Epizootic ulcerative syndrome)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic		
Farmed fish	Disease notification	General Surveillance
Wild	Disease notification	General Surveillance

Epizootic haematopoietic necrosis virus (Inf. with)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic				
Farmed fish	Disease notification	General Surveillance	Precautions at the borders	Targeted Surveillance
	1060 Number of samples collected,			
	Disease notification	General Surveillance	Targeted Surveillance	
Wild	... Number of samples collected,			

Infectious haematopoietic necrosis virus (Inf. with)

Occurrence code

Domestic	Disease absent - Date of last occurrence: 2023/09/25
Wild	Disease absent - Date of last occurrence: Unknown

Preventive and control measures

Domestic	Compartmentalisation	Disease notification	General Surveillance	Movement control	Precautions at the borders
Farmed fish	Targeted Surveillance				
	1060 Number of samples collected,				
	Disease notification	General Surveillance	Targeted Surveillance		
Wild	... Number of samples collected,				

Infectious salmon anaemia virus (Inf. with) (HPR-deleted or HPR0 genotypes)

Occurrence code

Domestic	Disease absent - Date of last occurrence: 2010/12/31
Wild	Disease absent - Date of last occurrence: 2019/02/21

Preventive and control measures

Domestic	Disease notification	General Surveillance	Precautions at the borders	Targeted Surveillance
Farmed fish				
	579 Number of samples collected,			
	Disease notification	General Surveillance	Targeted Surveillance	
Wild	... Number of samples collected,			

Koi herpesvirus (Inf. with)

Occurrence code

Wild	Disease absent - Date of last occurrence: Unknown
------	---

Preventive and control measures

Wild	Disease notification	General Surveillance
------	----------------------	----------------------

Red sea bream iridovirus (Inf. with) (-2024)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic	
Farmed fish	General Surveillance
Wild	General Surveillance

Salmonid alphavirus (Inf. with)(2014-)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic		
Farmed fish	Disease notification	General Surveillance
Wild	Disease notification	General Surveillance

Spring viraemia of carp virus (Inf. with)

Occurrence code

Domestic	Disease absent - Date of last occurrence: 2003/07/31
Wild	Disease absent - Date of last occurrence: Unknown

Preventive and control measures

Domestic			
Farmed fish	Disease notification	General Surveillance	Precautions at the borders
Wild	Disease notification	General Surveillance	

Tilapia lake virus (Inf. with) (2023-)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic		
Farmed fish	General Surveillance	
Wild	General Surveillance	

Viral haemorrhagic septicaemia virus (Inf. with)

Occurrence code

Domestic	Disease absent - Date of last occurrence: 2009/01/31
Wild	Disease absent - Date of last occurrence: Unknown

Preventive and control measures

Domestic				
Farmed fish	Disease notification	General Surveillance	Precautions at the borders	Targeted Surveillance
	1060 Number of samples collected,			
Wild	Disease notification	General Surveillance	Targeted Surveillance	
	... Number of samples collected,			

Molluscs

Abalone herpesvirus (Inf. with)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic		
Farmed molluscs	General Surveillance	
Wild	General Surveillance	

Bonamia exitiosa (Inf. with)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic			
Farmed molluscs	Disease notification	General Surveillance	Precautions at the borders
Wild	Disease notification	General Surveillance	

Marteilia refringens (Inf. with)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic			
Farmed molluscs	Disease notification	General Surveillance	Precautions at the borders
Wild	Disease notification	General Surveillance	

Perkinsus marinus (Inf. with)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic			
Farmed molluscs	Disease notification	General Surveillance	Precautions at the borders
Wild	Disease notification	General Surveillance	

Perkinsus olseni (Inf. with)(2006-)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic			
Farmed molluscs	Disease notification	General Surveillance	Precautions at the borders
Wild	Disease notification	General Surveillance	

Xenohaliotis californiensis (Inf. with)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic

Farmed molluscs

Wild

General Surveillance

General Surveillance

Crustaceans

Acute hepatopancreatic necrosis disease (2016-)

Occurrence code

Domestic

Disease never reported

Wild

Disease never reported

Preventive and control measures

Domestic

Farmed crustaceans

Wild

General Surveillance

General Surveillance

Aphanomyces astaci (Inf. with)(Crayfish plague)

Occurrence code

Domestic

Disease absent - Date of last occurrence: Unknown

Preventive and control measures

Domestic

Farmed crustaceans

General Surveillance

Decapod iridescent virus 1 (Inf. with) (2022-)

Occurrence code

Domestic

Disease never reported

Wild

Disease never reported

Preventive and control measures

Domestic

Farmed crustaceans

Wild

General Surveillance

General Surveillance

Hepatobacter penaei (Inf. with)(Necrotising hepatopancreatitis)(2011-)

Occurrence code

Domestic

Disease absent - Date of last occurrence: Unknown

Wild

Disease absent - Date of last occurrence: Unknown

Preventive and control measures

Domestic

Farmed crustaceans

Wild

General Surveillance

General Surveillance

Infectious hypodermal and haematopoietic necrosis virus (Inf. with)

Occurrence code

Domestic

Disease never reported

Wild

Disease never reported

Preventive and control measures

Domestic	
Farmed crustaceans	General Surveillance
Wild	General Surveillance

Infectious myonecrosis virus (Inf. with)(2008-)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic	
Farmed crustaceans	General Surveillance
Wild	General Surveillance

Macrobrachium rosenbergii nodavirus (Inf. with) (White tail disease) (2008-)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic	
Farmed crustaceans	General Surveillance
Wild	General Surveillance

Taura syndrome virus (Inf. with)

Occurrence code

Domestic	Disease absent - Date of last occurrence: Unknown
Wild	Disease absent - Date of last occurrence: Unknown

Preventive and control measures

Domestic	
Farmed crustaceans	Disease notification General Surveillance
Wild	Disease notification General Surveillance

White spot syndrome virus (Inf. with)

Occurrence code

Domestic	Disease absent - Date of last occurrence: Unknown
Wild	Disease absent - Date of last occurrence: Unknown

Preventive and control measures

Domestic	
Farmed crustaceans	Disease notification General Surveillance
Wild	Disease notification General Surveillance

Yellow head virus genotype 1 (Inf. with) (2019-)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic		
Farmed crustaceans	Disease notification	General Surveillance
Wild	Disease notification	General Surveillance

Amphibians

Batrachochytrium dendrobatidis (Inf. with)(2009-)

Occurrence code

Domestic	Disease absent - Date of last occurrence: Unknown
Wild	Disease absent - Date of last occurrence: Unknown

Preventive and control measures

Domestic		
Farmed amphibians	Disease notification	General Surveillance
Wild	Disease notification	General Surveillance

Batrachochytrium salamandrivorans (Inf. with)(2014-)

Occurrence code

Domestic	Disease never reported
Wild	Disease never reported

Preventive and control measures

Domestic		
Farmed amphibians	Disease notification	General Surveillance
Wild	Disease notification	General Surveillance

Ranavirus (Inf. with)(2009-)

Occurrence code

Domestic	Disease absent - Date of last occurrence: Unknown
Wild	Disease absent - Date of last occurrence: 2014/03/27

Preventive and control measures

Domestic		
Farmed amphibians	Disease notification	General Surveillance
Wild	Disease notification	General Surveillance

4. Listed diseases without information in this period
